REVUE DES DEUX MONDES. Sommites Litteraires et Scientifiques, de la France et des pays Etrangera. Published on the first and fifteenth of every month. Each number contains 176 pages, 8vo., at \$12 50

* The Revue des Deux Mondes has been formed for the purpose of establishing an intercourse in the intellectual pursuits the most followed between distinguished men of Europe and America. It is proposed in this collection to give a prominent place to the affairs of the American Union, to the labors of its politicians, and to the Literary and Scientific publications of its Authors. The Revue des Deux Mondes now makes a public appeal to American Authors and Editors, by sending to it, through Mr. Putnam, of New York, a copy of each of their publications. The Revue is in a better position than any other organ in Europe to serve as an intellectual link between the Old and the New World, which has as Editors and Contributors the most eminent political scientific, and literary men of France. Many of its contributors have visited North and South America, and it still counts among them many of the Diplomatic and Consular Corps. Each number of the Revue, in addition to its articles signed by the first names of France, contains, under the title of "Chronique de la Quinzaine," a historical summary of the principal events of the political world, which will certainly be, for the American, the most faithful picture of the European movements.

THE KNICKERBOCKER MAGAZINE.

Edited by Lewis Gaylord Clark.

THIS is pronounced, by the press of America and England, the best magazine in America. It has nearly reached its thirty-fourth colume, and in its list of upward of a hundred contributors are found the names of every distinguished writer, male and female, in America, with several equally prominent of Great Britain, Turkey, Sweden, etc. A new volume, containing a superb engraving, a portrait of the clitor engraved by Chenry, from a painting by Elliott, will commence on the first day of July, 1849. The following notices of the Knickerscocker are from the American and English press, and from American and British writers of distinction.

The Knickerscocker.—The last number of this venerable and widely-popular periodical appears upon entirely new and beautiful type, is all its departments; and in its rich and diversified contents, continues to vindicate its reputation as the most agreeable and entertaining Magazine published in the United States. When we first started the old that of any American Monthly; a fact which literally 'speaks volumes' in praise of the manner in which the work has been conducted. No number of the K. has ever been issued under Clark's supervision that did not bear indubitable evidence of editorial care, and anxious thought, and well-directed labor enstamped upon its pages. We have known no monthly, of this country or Europe, so thoroughly edited, in the strictest sense of the term.—New York Daily Tribune.

'Mathematicians tell us of certain curves called asymptotes, whose peculiarity is always to approach each other, and yet, even when infinitely extended, never to intersect. The Knickersbocker, which has reached an age for a man, and only to be attained by a more marvellous miracle, has perpetually approached the highest possible point of interest and excellence; and yet it seems to have an excellence; and yet it American Authors and Estimot, by sending to the off-the publication. The London Literary Gazette.—'The taste and talent which the Knickersocker displays are highly creditable to American writers, and very agreeable for English readers.'

London Metropolitan Monthly Magazine.—'We have read several numbers of this talented periodical, and rejoiced in them. They would do credit to any country or to any state of civilization to which humanity has yet arrived.'

London Athenres.—'From a very clever Monthly Magazine, 'The Knickersocker.' of New York, we copy the following spirited story,' etc.

Sir Edward Bulwer Lytton.—'The Knickersocker is the best American periodical I have yet seen. I take pleasure in enclosing you an article which was penned expressly for your work.'

Charles Dickers, esq.—'I read the Knickersocker with very great pleasure: it is indeed a most various and entertaining periodical. It affords me pleasure to contribute to the pages of a work which numbers among its regular correspondents such writers as Mr. Irving.

Rev. Dr. Dick Scotland.—'I have read a good many of the articles in the few numbers of the Knickersocker which you sent me, and find them to possess great merit. Some of its papers, it is true, were too light for my serious turn of mind; yet the whole appears well calculated to gratify the tastes of the mass of readers.'
